EDIC-mini TINY Model A27

1120/2240/4480/8960/17920/35840

Characteristics

- Wooden case:
- Dimensions: 130x110x35 mm;
- Weight: < 200 g;
- Operating temperature range: 0...+40 °C (32...+104 °F);
- Recording mode: mono;
- Recording duration: 600 hours;
- Built-in microphone's operating distance: 7-9 meters (21-27 ft);
- Battery life in record mode (sampling rate 8 KHz, without compression): 2 months (1500 hours);
- Battery life in record mode with VAS (audio signal below threshold): up to 6 months (4000 hours);
- In stand-by mode: up to three years up to 3 years (36 months);
- Power supply: rechargeable battery with 3000 mA/hr capacity;
- Charging from USB computer port.

In Box

- Recorder:
- USB cable;
- Software CD;
- Instructions.

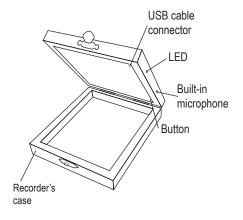

Figure 1: Edic-mini Tiny Model A27

Start/Stop Recording

To start/stop recording, keep the button pressed for 2 seconds while the LED does not signal. When the recorder starts/stops recording, the LED flashes five times.

While recording, the sequences of LED flashes show the charge of the battery (the first sequence: 1 flash – from 5% to 100%, 2 flashes – from 1% to 5%, and 3 flashes mean that the battery is almost discharged (it should be charged) and the second sequences show the free memory capacity: 1 flash – 75%-100%, 2 flashes – from 50% to 75%, 3 flashes – from 25% to 50%, and 4 flashes – from 1% to 25%).

To evaluate the rechargeable battery life in different modes, use the data from the Table 1.

⁴⁵ The data are for EDIC-mini Tiny A27-1120.

Table 1.

Compression	Without compression	Logarithmic ADPCM 2-bits	ADPCM 2-bits	ADPCM 4-bits
rate		Recording duration (hours)	ation (hours)	
5	1700	1500	1300	1300
8	1400	1250	1000	1200
11	1100	1000	900	950
16	026	150	700	750
22	750	009	550	220

Charging

The rechargeable battery's charging is automatic after connecting to a USB computer port. Full charging takes 10 hours. While charging, the recorder LED flashes with 5 second intervals. When the rechargeable battery is charged, the LED will flash without intervals.

Charge the rechargeable Li-ion battery every 4-5 months even if you do not use the recorder.

Designed and manufactured by the Telesystems Ltd.

The Manufactory Warranty Coupon

The manufacturer undertakes warranty repair liabilities for 1 year from the date of purchase, but no longer than 2 years from the date of manufacture of the product (warranty does not cover batteries). Paid repair is provided within recorder's operation lifetime (5 years). The manufacturer reserves the right to refuse in repair after the expiration of recorder operation life.

This warranty is voided if the recorder is:

- improperly used
- mechanically damaged
- received without supplier warranty tag on this document

All questions regarding product exchange and return must be solved with the seller's company according to Protection of Consumers Law.
